

Do you like living in a democracy?

Well, enjoy it while you can...

The UK government is quietly attempting to pass a law that will give almost **unlimited power to government ministers**. It will make it almost impossible for Parliament to stop them from misusing this power.

It is the **Legislative and Regulatory Reform Bill**, and it threatens to destroy 700 years of democracy in the UK.

All we have to protect us is the government's promise that it will not be misused. **But what about in the future?** Can they guarantee that all future governments will keep their promise?

This Bill must not be allowed to go ahead. To find out more, and to learn **how you can help**, visit our website:
