

Do you like living in a democracy?

Well, enjoy it while you can...

The UK government is quietly attempting to pass a law that will give them almost **unlimited power**. It will also make it extremely difficult for Parliament to prevent them from misusing this power.

It is the **Legislative and Regulatory Reform Bill**, and it threatens to destroy 700 years of democracy in the UK.

...a nightmare plot

- The Times: 15/2/2006

The Bill can change or remove any law, including itself. There are **effectively no limits** to its scope. All we have to protect us is the government's promise that it will not be misused. But what about in the future? Can they **guarantee** that all future governments will keep their promise?

...truly how democracy is extinguished

- The Guardian: 5/3/2006

This Bill must not be allowed to go ahead. To find out more, and to learn **how you can help**, visit our website:
